

School Education during COVID-19 in Uttar Pradesh (India)

LALITA PRADEEP

PES

Director

**State Institute of Educational Technology
(SIET),UP**

21/08/2020

General scenario....

Unprecedented circumstances

Difficult time

Rippling effect on parents and students

Children static at home

Less physical activities

Depressing and disappointing

Health and education collectively responding

Our Response to Covid-19: Teachers

- Imparting learning thru their own You tube channels
- W'app to connect with students/parents
- Developing and sharing e-Content thru social media
- Class-wise W'app groups
- Use of Educational Technology to enhance, empower the online resources to learn and teach

Our Response to Covid-19: Department

- Regular online Classes for students
- e-Pathshala
- Use and enriching DIKSHA App (more than 4000 videos available)
- Online Training on Language for SRGs
- Mission Prerna (an online holistic portal for School Education)
- Mission Prerna You tube Channel (more than 1.03 lakh hours content is watched)
- Webinars, to reach every single teacher thru small groups of 30 at grass root level

State sponsored programs..

- Meena ki Duniya (videos/thru Radio) Unicef
- Full-on Nikki
- Radio Program on English Language
- You tube videos for students subject-wise/class-wise
- Print rich content (activity based educational posters)
- Encouraging community/SMC/Parents to explore online resources
